1. Introduction

This document's purpose is to inform users how to use the To-Do List Unlimited 2019 application, and to highlight key its key features. The program overview explains the application's purpose and general use. The installation section will walk the user through where to access the file and how to download and install it on macOS, Linux, and Windows. The getting started section explains the application's use, while the user interface overview describes how to use each aspect of the program. The example runs section displays what the user should expect when performing various actions in the application. The restarting section explains how to restart the program without losing saved information, and the ending the program section describes how to safely and securely exit the program.

2. Program Overview

The To-Do List Unlimited 2019 allows the user to create a To-Do List for their day-to-day lives. The user can add an item to the To-Do List, add a description to the item, a due date, and a priority number input by the user. They are also able to change an item's traits such as its description, due date, priority number, and the item's status such as not started, in progress with the date started, and finished with the finish date. The user can delete items from the To-Do List as well as rearrange the list based on an item's priority number. By default, the list will display based on priority number, but the user has the option to display by name and due date as well. The user has the option to print out the displayed To-Do list into a separate text file as well. There is also an option for the user to save the list to edit later, as well as restore a previous list.

3. Installation

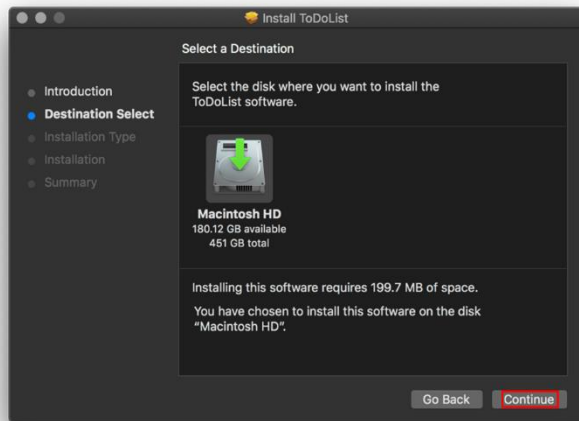

3.1 On macOS

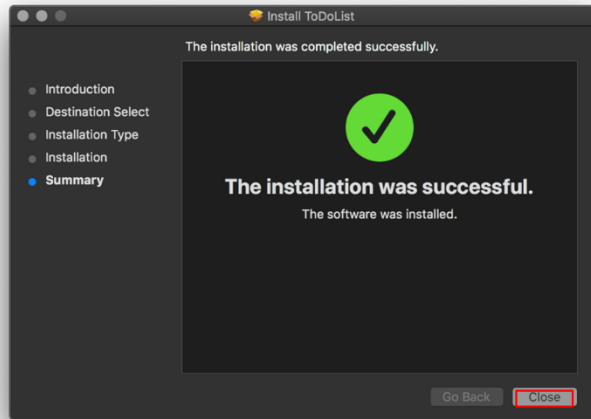

Download the **ToDoList-1.0.pkg** file from Blackboard

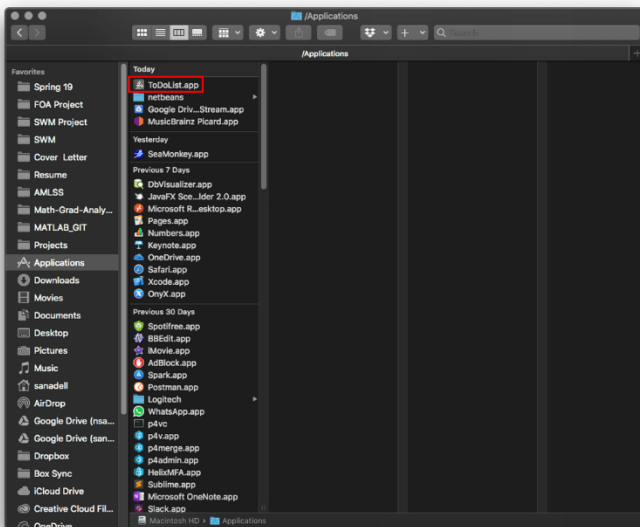

Double click on the package file to install. Select the options highlighted in the below screenshots to complete the installation.

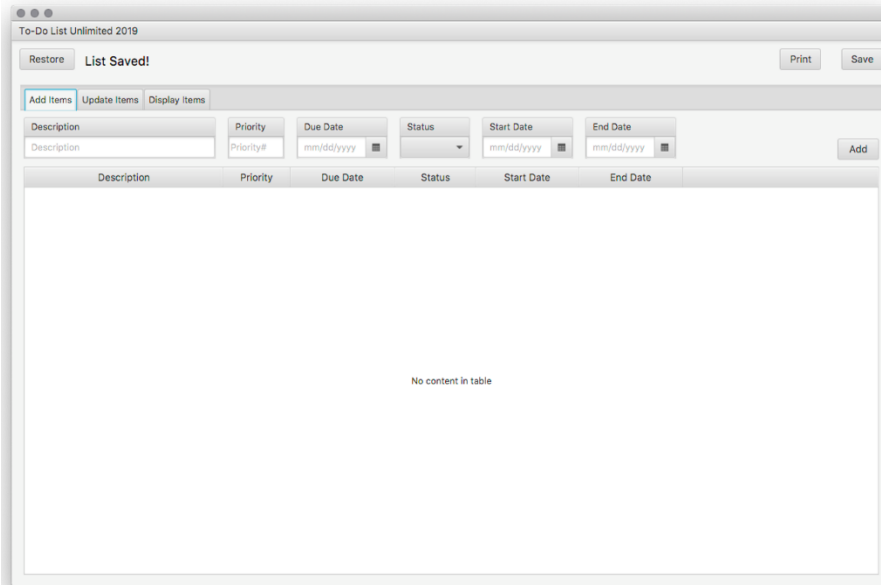

Double click **ToDoList.app** under **Applications** to open

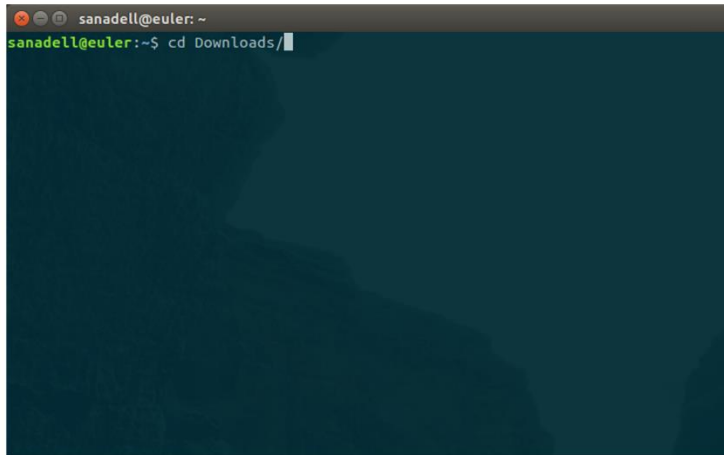

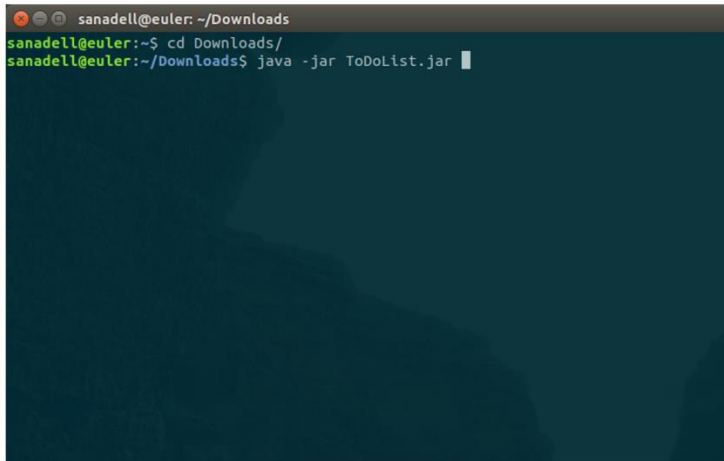

3.2 On Linux

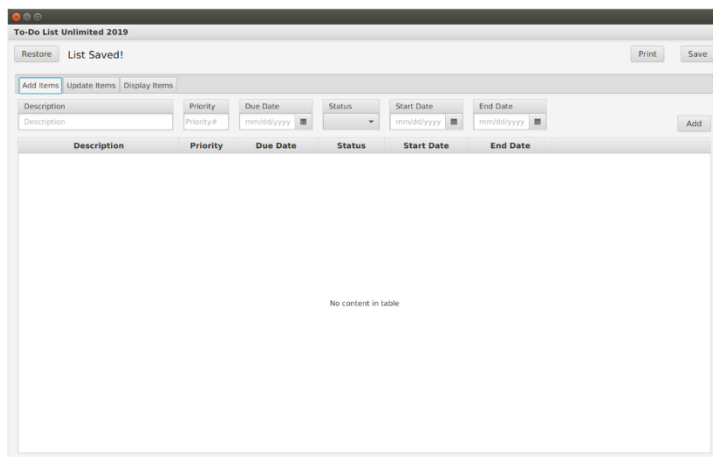

Open **Terminal** application

```
sanadell@euler: ~  
sanadell@euler:~$ cd Downloads/
```

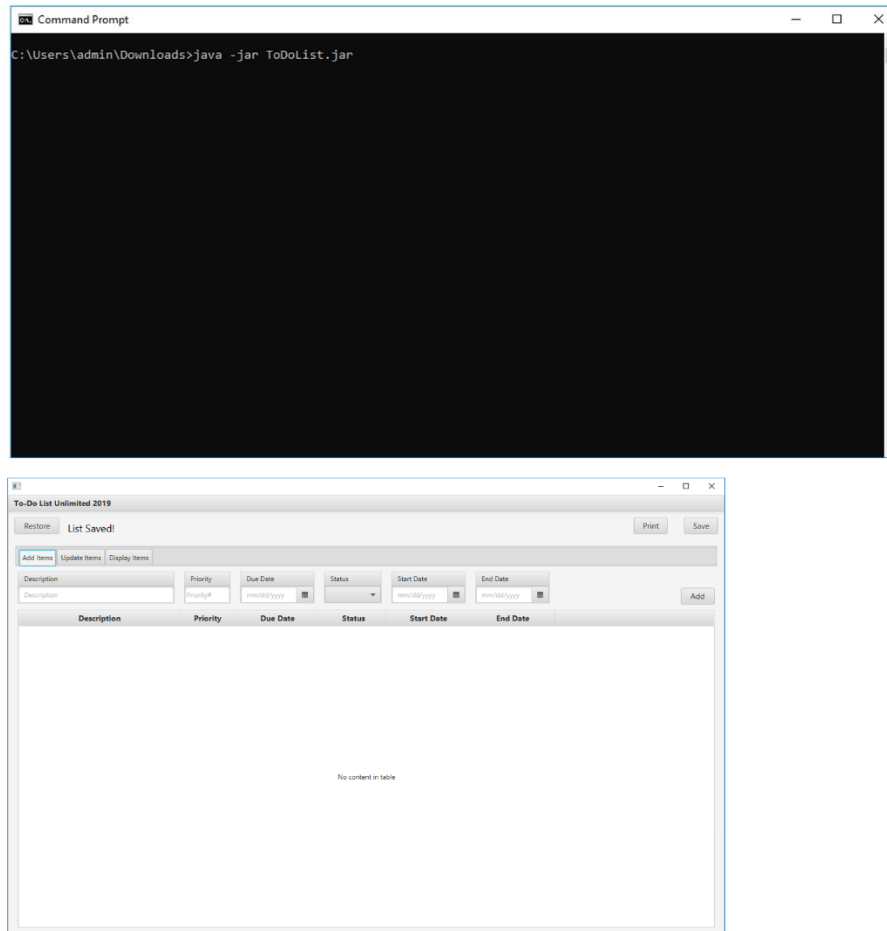

```
sanadell@euler: ~/Downloads  
sanadell@euler:~$ cd Downloads/  
sanadell@euler:~/Downloads$ java -jar ToDoList.jar
```

The application window titled "To-Do List Unlimited 2019" features a toolbar with "Restore", "List Saved!", "Print", and "Save" buttons. Below the toolbar are three tabs: "Add Items", "Update Items", and "Display Items". The "Add Items" tab is active, showing a form with fields for "Description", "Priority", "Due Date", "Status", "Start Date", and "End Date". Each field has a corresponding label and a small icon. An "Add" button is located to the right of the "End Date" field. Below the form is a table with the same column headers: "Description", "Priority", "Due Date", "Status", "Start Date", and "End Date". The table is currently empty, displaying the message "No content in table".

3.3 On Windows

Open **Command Prompt** and navigate to **Downloads** location

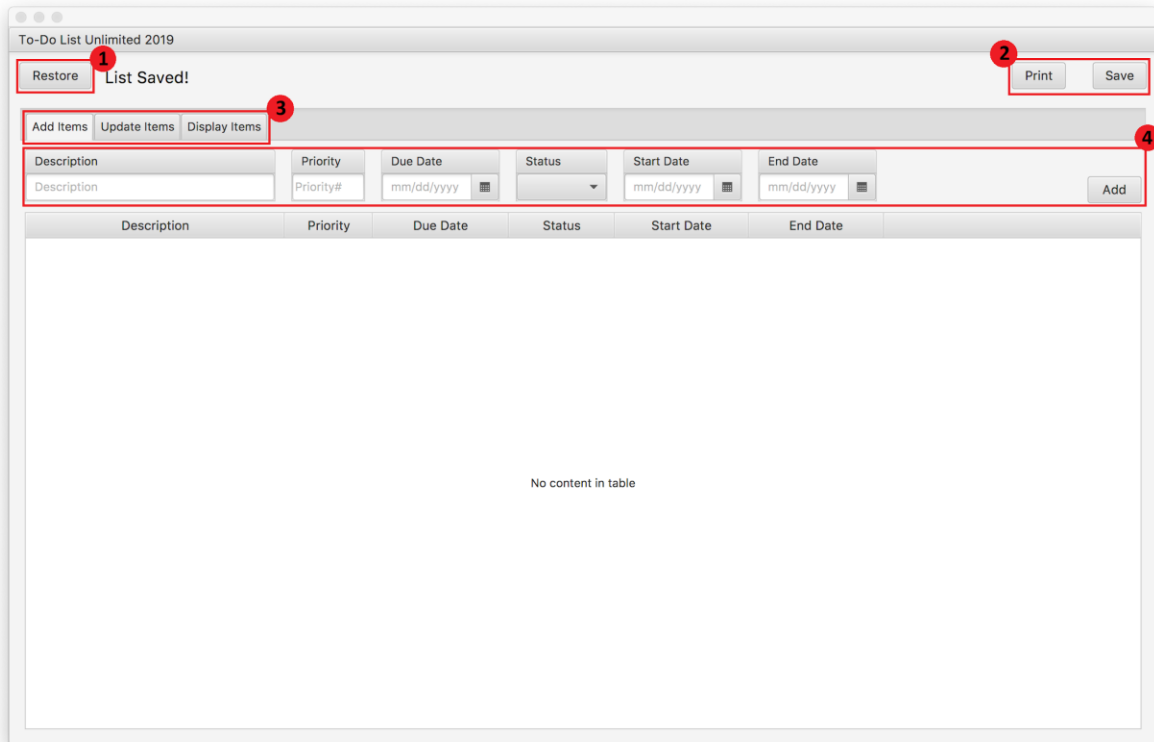

4. Getting Started

This guide will help you learn how to use **To-Do List Unlimited 2019**:

- Plan and organize everything that you need for everyday work. Never miss your due dates again!
- Prioritize tasks and track things easily with a click of a button
- Sort the items based on Start Date, Due Date, Priority and Task status
- Print the list and pin to a drawing board in your room
- Save task list and never forget things again!

5. User Interface Overview

5.1 Add Items Tab

1. Restore

The **Restore** button lets you restore a previously saved To-Do List.

2. Print and Save

The **Print** button lets you print the current To-Do List.

The **Save** button lets you save the current To-Do List.

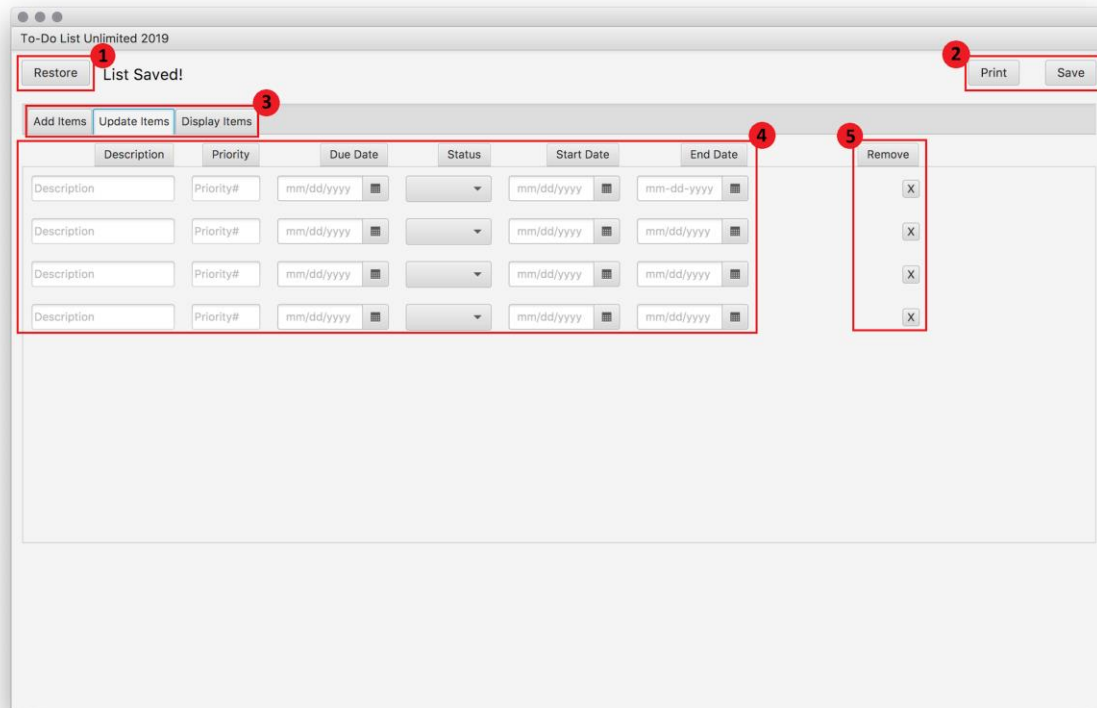

3. Display Tab

Click one of the three tabs to either **add items**, **edit items**, or **display** your To-Do List.

4. Add To-Do List Items

The **Add** button lets you add an item to your To-Do List after filling out the appropriate information about the item.

5.2 Update Items Tab

1. Restore

The **Restore** button lets you restore a previously saved To-Do List.

2. Print and Save

The **Print** button lets you print the current To-Do List.

The **Save** button lets you save the current To-Do List.

3. Display Tab

Click one of the three tabs to either **add items**, **edit items**, or **display** your To-Do List.

4. Update To-Do List Items

Edit any previously entered item information from your To-Do List.

5. Remove To-Do List Items

Click the **Remove** button to remove a previously entered item from your To-Do List.

5.3 Display Items Tab

1. Restore

The **Restore** button lets you restore a previously saved To-Do List.

2. Print and Save

The **Print** button lets you print the current To-Do List.

The **Save** button lets you save the current To-Do List.

3. Display Tab Bar

Click one of the three tabs to either **add items**, **edit items**, or **display** your To-Do List.

4. To-Do List Table Display

A table where you will be able to see all of your entered items of your To-Do List. The table can be sorted in ascending or descending order based on the item name, priority, or due date.

6. Example Runs

6.1 How to Add Items

1. Click the **Add Items** button on the **Display Tab Bar** to get to the **Add Items Tab**.

The screenshot shows the 'To-Do List Unlimited 2019' application window. At the top, there's a status bar with 'Restore', 'List Saved!', 'Print', and 'Save' buttons. Below this is a tab bar with 'Add Items', 'Update Items', and 'Display Items'. The 'Add Items' tab is selected and highlighted with a red box. The main area contains a form with fields for 'Description', 'Priority', 'Due Date', 'Status', 'Start Date', and 'End Date'. The 'Description' field has a placeholder 'Description'. The 'Priority' field has a placeholder 'Priority#'. The 'Due Date', 'Start Date', and 'End Date' fields have a date format 'mm/dd/yyyy' and a calendar icon. The 'Status' field has a dropdown arrow. An 'Add' button is located to the right of the form fields. Below the form is a table with columns: 'Description', 'Priority', 'Due Date', 'Status', 'Start Date', and 'End Date'. The table is currently empty, and the text 'No content in table' is displayed in the center.

Description	Priority	Due Date	Status	Start Date	End Date
No content in table					

2. Enter the To-Do List item information using the following boxes:

NOTE: An item must have a **Description**, **Priority**, **Due Date**, and **Status** set to be added to the To-Do List otherwise you will receive an error about attempting to add an incomplete item.

To-Do List Unlimited 2019

Restore List Saved! Print Save

Add Items Update Items Display Items

Description Priority Due Date Status Start Date End Date

Description Priority# mm/dd/yyyy mm/dd/yyyy mm/dd/yyyy

Add

Description	Priority	Due Date	Status	Start Date	End Date
No content in table					

Description: A description of the To-Do List item. This description must be **unique**. This means that no two items can have the exact same description.

NOTE: If you try adding an item with the same description as a previously entered item, you will receive an error telling you to re-enter a **unique** description for the item.

Priority: The priority number of the To-Do List item. This priority number must be **unique**. This means that no two items can have the exact same priority number.

NOTE: If you add a To-Do List item with the **same** priority number as a previously entered item, the **newest** item entered will take that priority number and the rest of the priority numbers of entered items will be shifted to accommodate the new To-Do List item.

Due Date: The due date of the To-Do List item.

NOTE: If you try adding a To-Do List item without a due date, you will receive an error and be told to enter in a due date for the item.

Status: The status of the To-Do List Item. There are three possible Status options of an item:

- **Not Started:** The item has yet to be started.
- **In Progress:** The item is in progress.
- **Finished:** The item has been finished.

NOTE: If you try adding a To-Do List item without a status, you will receive an error telling you to set a status for the item.

Start Date: The start date of the To-Do List item. The start date is set once your item status has been updated to **In Progress**.

End Date: The end date of the To-Do List item. The end date is set once your item status has been updated to **Finished**.

3. Click the **Add Button** to add your item to the To-Do List.

Add Items Update Items Display Items

Description Priority Due Date Status Start Date End Date

Description Priority# mm/dd/yyyy mm/dd/yyyy mm/dd/yyyy

Add

Description	Priority	Due Date	Status	Start Date	End Date
No content in table					

6.2 How to Update or Remove Items

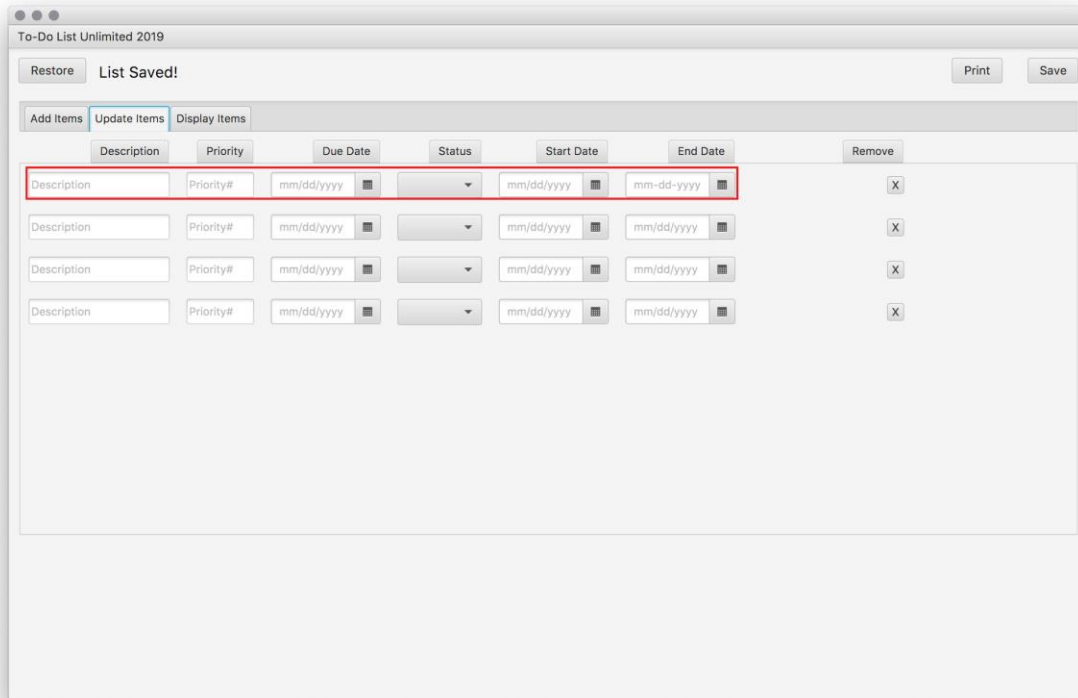

1. Click the **Update Items** button on the **Display Tab Bar** to get to the **Update Items Tab**.

The screenshot shows the 'To-Do List Unlimited 2019' application window. At the top, there's a title bar with standard window controls. Below it, a status bar shows 'Restore' and 'List Saved!' buttons, along with 'Print' and 'Save' buttons on the right. The main interface features a 'Display Tab Bar' with three tabs: 'Add Items', 'Update Items' (which is highlighted with a red box), and 'Display Items'. Below the tabs is a table with columns: 'Description', 'Priority', 'Due Date', 'Status', 'Start Date', 'End Date', and 'Remove'. The table contains four rows of data, each with a text input for 'Description', a dropdown for 'Priority', date pickers for 'Due Date', 'Start Date', and 'End Date', and a 'Remove' button with an 'X' icon.

Description	Priority	Due Date	Status	Start Date	End Date	Remove
<input type="text"/>	Priority#	mm/dd/yyyy		mm/dd/yyyy	mm-dd-yyyy	X
<input type="text"/>	Priority#	mm/dd/yyyy		mm/dd/yyyy	mm/dd/yyyy	X
<input type="text"/>	Priority#	mm/dd/yyyy		mm/dd/yyyy	mm/dd/yyyy	X
<input type="text"/>	Priority#	mm/dd/yyyy		mm/dd/yyyy	mm/dd/yyyy	X

2. Update an item from the To-Do List of your choosing

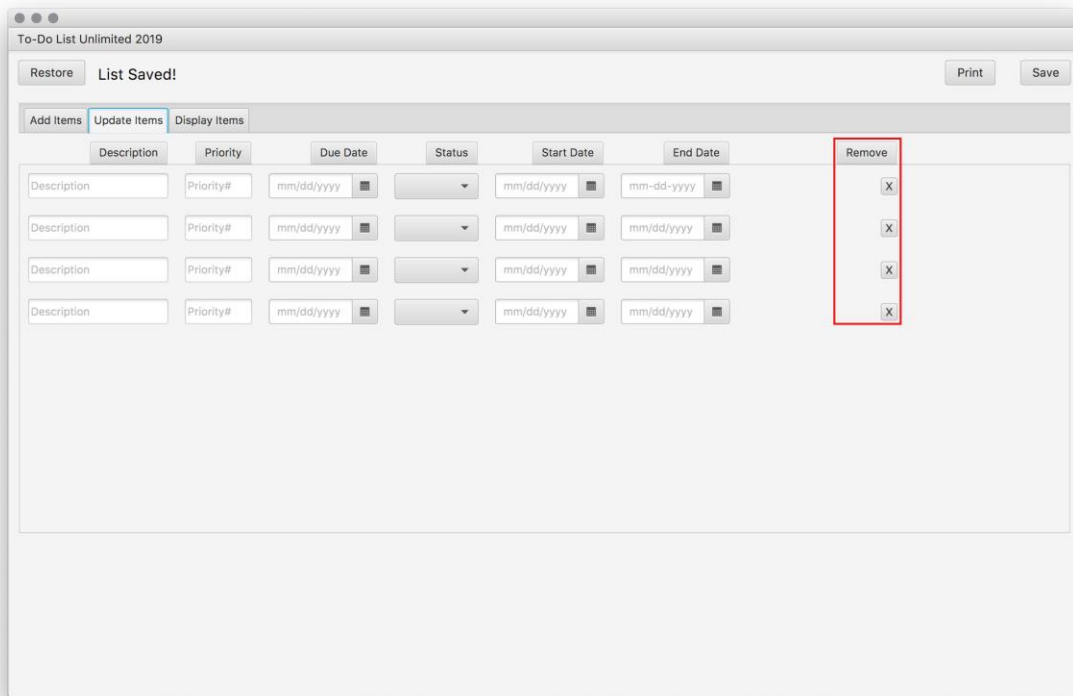

NOTE: If you try to update the information on an item and the **Description**, **Priority**, **Due Date**, or **Status** are not included you will receive an error message and cannot update the item until it meets these requirements. You also cannot update an item if the **Description** or **Priority** are not **unique** and will receive an error message until you enter in a unique description or priority for the To-Do List item.

The screenshot shows the 'To-Do List Unlimited 2019' application window. At the top, there are buttons for 'Restore', 'List Saved!', 'Print', and 'Save'. Below these are three tabs: 'Add Items', 'Update Items' (which is selected), and 'Display Items'. The 'Update Items' tab contains a table with the following columns: Description, Priority, Due Date, Status, Start Date, End Date, and Remove. The first row of the table is highlighted with a red border. The table contains four rows of data, each with a red 'X' in the 'Remove' column.

Description	Priority	Due Date	Status	Start Date	End Date	Remove
Description	Priority#	mm/dd/yyyy		mm/dd/yyyy	mm-dd-yyyy	X
Description	Priority#	mm/dd/yyyy		mm/dd/yyyy	mm/dd/yyyy	X
Description	Priority#	mm/dd/yyyy		mm/dd/yyyy	mm/dd/yyyy	X
Description	Priority#	mm/dd/yyyy		mm/dd/yyyy	mm/dd/yyyy	X

3. Remove the item from the To-Do List by hitting the **Remove** button

6.3 Displaying the Current To-Do List

1. Click the **Display Items** button on the **Display Tab Bar** to see the table display of your To-Do List.

6.4 Printing the To-Do List

To print your To-Do List, you will click the **Print** button and it will save your To-Do List in a reader-friendly format that will allow you to print the list from your choice of word processing software.

6.5 Saving the To-Do List

If you wish to update your To-Do List at a future time and save it, you can simply click the **Save** button and it will save your list in a text file where you will be able to restore it to its previous state using the program.

6.6 Restoring the To-Do List

If you wish to restore your To-Do List, you will click the **Restore** button and select your previously saved To-Do List. As soon as the software has loaded in your saved To-Do List, it will be ready for you to add, remove, update, and display once again.

7. Restarting

To restart the program, first ensure that the created To-Do List is either saved, printed or no longer needed. Afterward, exit out of the program via the close (X) button on the top of the program window, and re-enter the program according to the Installation Chapter (Chapter 3). The program will start up a new To-Do List where either a previous list can be restored or a new list can be created.

8. Ending the Program

Before exiting the program, make sure that the created To-Do List is either saved, printed, or no longer needed. Afterwards, simply press the close (X) button located along the top of the program window. It will be on the top right for Windows computers and top left for macOS computers.
